

FA020 KIT – ILLUSTRATIONS
FOR REPLACING A CYLINDRICAL RELIEF VALVE WITH THE HIGHER
QUALITY FA020 VALVE KIT.

IMPORTANT NOTES:

- The bottom nipple or lower tee **HAS NOT** been tightened!
- **For a right hand discharge mixer** move the nipple to the other side of the tee and rotate the lower tee half a turn.
- **560/680 mixers** have 45 deg. elbows that must be reused.
